

Bram Peters

Senior Data and BI Specialist, Product Designer

MSc Human Technology Interaction
UX, UI & Interaction Design & Research

ABOUT ME

Business Intelligence Specialist at KLM Royal Dutch Airlines with an MSc in Human-Technology Interaction. I turn data into intuitive products with organisational and societal impact, combining ETL pipelines, front-end delivery and user-centred design in agile teams.

EDUCATION

MSc Human-Technology Interaction

TU/e – Eindhoven, Netherlands

Erasmus MSc Computer Science

KTH – Stockholm, Sweden

Erasmus MSc Interactive Media Technology

KTH – Stockholm, Sweden

BSc Psychology & Technology

TU/e – Eindhoven, Netherlands

LANGUAGES

Dutch Native

English Near-native | Professional

Swedish Conversational

CERTIFICATES

Data Storytelling with PowerBI & Python

Edureka (2025)

Python for Data Science & Engineering

IBM (2025)

UX Design

Google (2025)

Advanced BI Developer

Computrain (2024)

Advanced SQL Programmer

Computrain (2024)

PROFESSIONAL EXPERIENCE

Business Intelligence-Specialist, KLM

Amsterdam Airport Schiphol | Jun 2026 – Present

Data, Transformation & Continuous Improvement | Airframe @ Engineering & Maintenance

Senior BI Advisor & Product Designer, UWV SMZ

Amsterdam | Jul 2025 – May 2026

Led BI products for Social-Medical Affairs: ETL pipelines (SQL, SSIS/SSAS, Oracle), external data integration, advanced DAX modelling and Power BI dashboards aligned with Dutch social security legislation.

Data Analyst & BI Specialist, UWV SMZ

Amsterdam | Aug 2024 – Jul 2025

Built and optimised pipelines and dashboards. Translated business requirements into data models and integrated agency sources with internal BI tools for multiple stakeholders.

Data/BI Specialist, SereniT

Amsterdam | Jan 2024 – Aug 2024

Delivered dashboards and reports for public and private clients. Led stakeholder workshops, defined KPIs, and built DAX measures and SQL queries.

Master Thesis Project – TU/e Security Office

Eindhoven | Dec 2022 – Oct 2023

Designed and built a dashboard supporting self-regulated learning. Conducted user research, defined requirements with security officers and iterated wireframes in Power BI using UX methods.

Frontend Developer, TU/e

Eindhoven | Sep 2022 – Dec 2022

Built modular React/Vue components for Typo3, SharePoint and educational portals; supported cross-team development of internal tools.

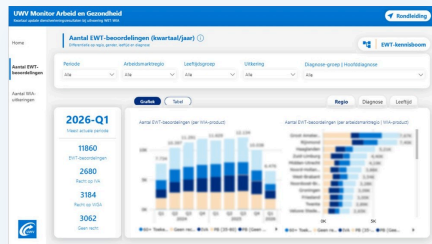

UX Designer & Android Developer, Blue Jay

Eindhoven | Jun 2018 – Jun 2020

Designed a healthcare drone interface and mobile app, from UX research and iterative testing to delivery. Added voice recognition and mood-sensitive lighting in an Agile/Scrum team.

Selected work & capabilities

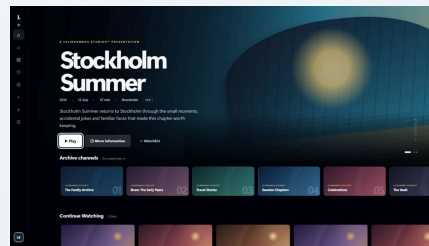

PORTFOLIO

UWV Monitor Arbeid & Gezondheid

Turned socio-medical data into clear insight on WIA assessments, diagnoses, outcomes and regional trends, supporting transparency and accountability.

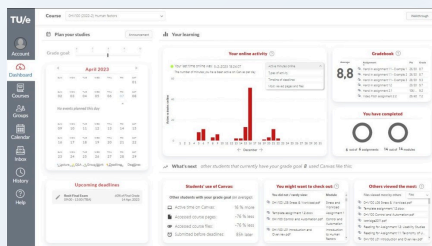

[View project ↗](#)

LELIBRAMBAS+ | Family Archive Streaming

Designed and built a family streaming platform for Apple TV, desktop and mobile, spanning UX/UI, data architecture, cloud infrastructure and APIs.

[View demo ↗](#)

TU/e Learning Dashboard

Designed a student-facing learning dashboard with user journeys, ETL processes and academic-performance visualisations to support self-regulated learning.

[View project ↗](#)

The 'Emotional' Drone

Designed a healthcare drone interface and Android app, combining user research, voice recognition and mood-sensitive lighting to support staff and patients.

[View project ↗](#)

Doula | UX/UI Case Study

Redesigned a pregnancy and contraction-tracking app in a 10-hour UX/UI case study, using user research and usability findings.

[View project ↗](#)

Vinobo

Built a video-learning tool with searchable YouTube transcripts, timestamped annotations and personal notebooks saved to user accounts.

</> SKILLS

Business Intelligence Advisor

Advanced

Power BI/DAX, SQL, SSIS/SSAS, ETL, RLS/OLS, data quality & lineage, GDPR-compliant reporting, policy-driven KPIs, performance tuning, paginated reports, stakeholder-ready dashboards for agencies

Data Analytics

Expert

R, Stata, data mining, data engineering, scientific research methods, machine learning, advanced analytics, statistical methods, A/B testing

UX/UI & Interaction Design

Advanced

Figma, Adobe XD, wireframing, prototyping, usability testing, user flows, cognitive walkthroughs, design systems

Frontend Development

Proficient

HTML, CSS, JavaScript, TypeScript, React, Vue.js, responsive web applications, progressive web apps (PWAs), REST API integration, dynamic interfaces

App Development

Proficient

Android, Kotlin, Apple tvOS, Power Apps

Cloud Databases & API Integration

Proficient

Cloudflare D1, SQL database setup, cloud data storage, API authentication & access control, REST APIs, frontend-backend integration, data fetching, read/write operations, dynamic data synchronisation

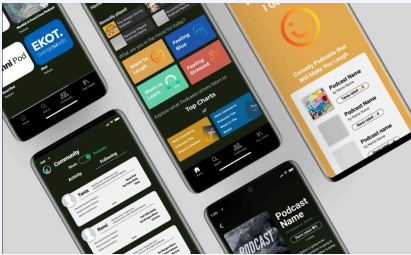

AI-Assisted Software Development

Proficient

AI coding tools, translating requirements into prompts, context management, iterative prototyping, code review & refinement, debugging, testing, integration into existing applications

Selected work & capabilities

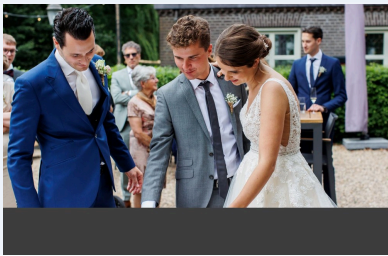

📷 PORTFOLIO CONTINUED

Reimagining Spotify Podcasts

Applied the Double Diamond framework at KTH to research user expectations and redesign the podcast experience around listener goals.

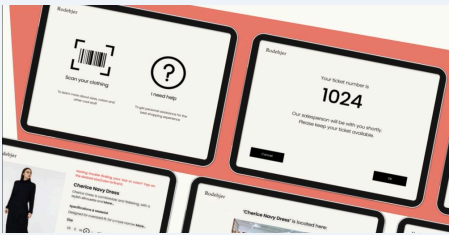

[View project ↗](#)

The Honeymoon Webshop

Built a personalised wedding-gift webshop for honeymoon activities and hotel stays, with guest messages brought together in a keepsake collage.

[Contact me ↗](#)

Raspberries Shopping Assistant

Co-designed Rodebjer's in-store digital shopping assistant, giving customers greater control over fitting rooms, service and their shopping experience.

[View project ↗](#)

J. Meijer B.V. 40 Jaar

Created "A Day in the Life of Luca Orvini", a playful anniversary film spanning concept development, directing and post-production.

[View project ↗](#)

</> SKILLS CONTINUED

Applied AI & Agent Development [Proficient](#)

AI agent design, system instructions, persona & behaviour design, knowledge integration, AI-powered websites & applications, workflow orchestration, connected AI services, automated summarisation, structured outputs, output evaluation & guardrails

Cognitive & Behavioral Insight [Advanced](#)

Behavioral research methods, human cognition & perception, human-robot interaction, persuasive & ethical design

Data Privacy & Governance [Advanced](#)

GDPR, privacy-by-design, anonymisation, aggregation, data definitions, access control, RLS

Research & Methodology [Expert](#)

User research, stakeholder interviews, Double Diamond, self-regulated learning theory, storytelling, A/B testing

Tools & Platforms [Proficient](#)

SharePoint, Typo3, Git, Microsoft Azure, Power Automate, JIRA, Confluence, Databricks

Agile & Scrum Delivery [Intermediate](#)

Sprint planning, backlog refinement, iterative development, stakeholder management, cross-functional teamwork, demos & presentations, user stories

Project Start-Up & Stakeholder Management [Advanced](#)

Discovery → scoping → kickoff, stakeholder mapping, requirements, delivery roadmap & milestones, change management, workshops, executives updating, cross-functional collaboration

Hobbyist Passion: Videography [Proficient](#)

Cinematography, Directing & Concept Development, Post-Production, Project Management

My Next Project

I'm always looking for new challenges combining design and development. Let's connect!
